Charakteristika

Education and experience requirements

- Minimum 5 years of experience, including at least 2 years in quality assurance;
- ISO 19011 auditor qualification (system auditor) - minimum 3 days of training

Other requirements

- The applicant is required to take the [VDA Process Auditor Qualification 6.3](#) licensing course. If the applicant took the course in 2022 or earlier, then the [Upgrade](#) course is required prior to taking the exam.
- The applicant is required to take a minimum of a two-day course on Core-Tools; they have 2 options:
 - licensing course Automotive Core Tools for auditors - ACT VDA (at VDA QMC - ID 417) ACT VDA - Czech Society for Quality (csq.cz).
 - or
 - Non-licensed courses on the topic of Core-Tools (at least 2 days long and not older than 2019), followed by an online quiz. To access the quiz, it is necessary to contact the staff of the education department (novotova@csq.cz, kotenova@csq.cz).

A list of VDA QMC licensing partners can be found at: <https://vdaqmc.de/en/training-and-professional-development/training-license-partners/>

. Courses from other providers will not be accepted for the exam.

Certification exams are normally conducted at the premises of the CSJ. In Slovakia, they are conducted in

rented premises, mostly in Bratislava. In case of more than 5 candidates from one company, the certification exam can be conducted in the company.

Doplňkové informace

The successful candidate receives a VDA 6.3 auditor certificate electronically, which is registered in the VDA QMC and CSJ database.
